

YouTube Ad #1 - Location location location

[voice over]

Did you know making money online works the same as making money in the real world?

Yes, if you want to start making money online, focus on one thing.

LOCATION - LOCATION - LOCATION

For example...

You wouldn't expect to make money selling lemonade in the woods, would you?

No! There's no one there!

But that's exactly what a lot of new business owners do online.

They set up their online store in the middle of nowhere. And then they shout out as loud as they can on social media to try and get attention to their store.

Well...yeah, it can work...

But there's an easier way to do it.

Why not set up an online store where everyone's already spending money?

Again...making money online is the same as making money in the real world.

It's all about location, location, location.

Instead of selling your products in the middle of nowhere...

Why not put yourself DEAD CENTER of a mall with 150 million people passing by your products every single month?

Wouldn't that help you make a lot more sales?

Well, that mall is called Amazon.

And what most people don't know is about 50% of all products on Amazon are sold by everyday people like you and me - not some big corporation.

My name is Tom Wang

I started selling on Amazon as a side hustle back in 2017.

Who would've known, 3 years later I'd grow my brand Sdara Skincare to sell millions of dollars worth of products...

All by selling our products on Amazon.

[image of Amazon earnings]

And most importantly, I didn't get here by luck.

I was able to find profitable products because I used tools that showed me ALL of the data on Amazon.

[live demo]

Take this burrito blanket.

If I wanted to know how much the person selling this is making, did you know all you need to do is click a button to find out? Just like that within seconds, you'll be able to see how much each one of the products are making.

[use live updated numbers]

So what this means is you can use data to decide what is a good potential product to sell where you have a high-upside and there isn't much competition too.

Well it's because if the people who are selling a product are doing well, then you know if you also sell a similar product, you have the potential to do well too.

It's that simple.

Using this exact strategy, I've also helped people like Jennie - who was able to do this while still working full-time. [Jennie results]

People like Hiep - a construction worker who was able to leave his job in construction [Hiep results]

Or dozens of my other students who are getting results using my methods. [student results]

But what do you do after you find a product using this Amazon tool?

To walk you through the entire business model in more detail, I put together a free 15 minute training for you.

To access it, click the link on this video and I'll show you step-by-step...

How you can find your first profitable product to sell on Amazon.

How to negotiate with suppliers using our Rock Bottom strategy.

How to use our Rank and Bank strategy to get your products on the first page of Amazon.

And a whole lot more.

So if you want to learn more about how you can use Amazon (and their 150 million customers) to make money for yourself...

Just click the link in this video and I'll show you all of that in the free 15 minute training.

You have nothing to lose.

Click the link and I'll see you in the free training.

YouTube Ad #2 - Straight F ad

How did a straight F student like me [Tom's report card - red x], someone who dropped out of 3 colleges...

...end up with millions of dollars in my bank account?

You'll probably assume 1 of 3 things...

Either I got lucky...

I scammed people...

Or I had an unfair advantage like I was born rich or something.

But none of that is true.

If you go to my YouTube channel, you'll know that I've been documenting my journey since 2017. And to sum it up for you right now, all I did was take advantage of a booming trend that's not only made me a decent living. But thousands of other people too.

What is this trend?

Well I'm talking about the opportunity for everyday people like you and me to sell products on Amazon.

Yes. If you didn't know about 56% of all products you buy on Amazon are actually sold by people like me and my friends - not some big company.

All we did was we learned how to get our own products to show up on Amazon - and just like that, we're able to reach millions of customers every month.

If you want to know how to take advantage of Amazon's growth, then

My name is Tom Wang and I got started selling on Amazon back in 2017.

And in 3 years, I was able to grow my brand Sdara Skincare to 7-figures.

For a moment, I thought...maybe I actually did "just get lucky".

So I put my system to the test.

I showed a nurse how to do this and they did great...[results]

Then I showed an engineer how to do this and they did great too...[results]

And I showed my best friend how to do this and they did great too...[results]

Of course - these people worked very hard to get their results. But it really showed me that selling on Amazon can be for you - doesn't matter if you have any experience or not.

[other student results]

To start a new income stream on Amazon all you need is:

A few hours a week

A few thousand dollars for inventory

A proven system where you have the highest chance of success

And lastly, you need to add some grit.

This is a real business with real risks so if you're someone looking to be an overnight success, this isn't for you.

But if you're willing to put in some work and grow a business you can potentially exit for 7-figures like I did, then I want to share a short training with you.

Below this video, you'll find a link to a training where I walk you through exactly what I did to build Sdara Skincare from the ground up to do close to \$10M in sales - and how you can start your very own brand too.

In this training, you'll also learn

"How to find the best products to sell"

"How to negotiate with suppliers to get the best deals"

"How to get the product to show up when people look for it"

And much much more.

To get this training, just click the link below this video.

It's 100% free and quite frankly, you'll get more insights from this short training than most other videos you see about selling on Amazon.

So take advantage of it.

You really have nothing to lose.

See you on the inside.

YouTube Ad #3 - 3-4 months ad

Question: how long does it take to create a new stream of income from Amazon that can pay you for years?

Well, it should only take you about 3-4 months.

Yes within 3-4 months, you could be setting up a new stream of income that can pay you day in and day out no matter what you're doing for potentially years like it has for me.

Sounds too good to be true?

Well it's not and here's why.

My name is Tom Wang.

I became a self-made millionaire by the time I was 27 because I learned a simple 4-step process I rinse and repeat every time I want to earn more income.

And I'm not that special.

This is a process anyone can use.

Anytime you want to have a new stream of income or increase your income, you can follow these 4 steps too.

The best part is you don't need much to get started.

You only need a few thousand dollars for inventory. A few hours a week and a no excuse attitude to master the steps in the 4 step process.

If you have met this criteria then you can be like the people I've helped like Jennie.

Jennie was doing this very part-time so in her first year, she launched 2 products and she's doing great in sales.

Or you can be like my friend Dan who used to sell cars. In his first year, he was aggressive. So he launched a dozen or so products and is doing great too.

Whether you want to do this part-time like Jennie or full time like Dan.

Once you have this process down, you can rinse and repeat whenever you want a boost in your income. So no more going back to school. No more working overtime on holidays and

weekends. Just sit at home and take advantage of the fact that almost everyone shops on Amazon.

If you want to get this simple process you can use for life - then click on the link below.

You'll be taken to a short 15-minute training.

In this training, you'll get a step-by-step tutorial on a low-risk way to start selling on Amazon.

It's 15-minutes of pure gold content.

And you can implement what you learn right away - if you want to.

If you're someone who wants to work for yourself, then this is a great way to get started.

Check out this simple 4-step process for yourself.

I'll see you in the training.

What if I told you, you can create a new stream of income in as little as 3 to 4 months by selling on Amazon? [\[calendar counting down\]](#)

Would you believe me?

Well it is possible. I know this because I was able to do this time and time again for years and it made me a millionaire by the time I was 27. [\[Tom working / results\]](#)

And if you have a few hours a week, I can show you step-by-step how you can do this too.

You don't need to quit your job or go back to school.

Just follow a proven system that's worked for dozens of other people. [\[student results\]](#)

Click the link on this video to discover this 4-step system.

YouTube Mini Ad #2

You don't have to quit your job... [\[No-sign / ex-symbol over an image of a person leaving their job\]](#)

...to build a very successful business on Amazon.

I know this because I was able to start my business Sdara Skincare while still working my corporate job.

Yes I would be at my desk and when the boss wasn't looking, I would be secretly building my business. After 3 years, I sold this business for multiple 7-figures. [\[Sdara stats\]](#)

Want to see my exact strategy on how I did this from start to finish?

More importantly you want to see if you can do this while you're at your job too?

Then check this out.

Just click the link on this video to watch a free 15 minute training.
